Dear Ms. Roberts:

The Division of Water Pollution Control (the division) has received your application for the above referenced project as of September 25, 2009 and of supplemental application materials on November 9, 2009, and March 22, 2010. We have reviewed the application for completeness in accordance with TDEC Rule 1200-4-5-.05 (2) and find the application to be incomplete. The processing of this application has been suspended until the following information has been submitted:

- A Nutrient Management Plan (NMP) that has been reviewed and approved by the Tennessee Department of Agriculture (TDA). A copy of your application has been sent to the TDA for their review. You may contact Dr. Sam Marshall with the TDA at 615-837-5306 to check on the status of your NMP.

Submit the above requested information to the address listed at the top of this letter. You should be aware that in accordance with TDEC Rule 1200-4-5-.05 (2), your receipt of this notice does not preclude the division from later requesting additional material that subsequent to the notice of completeness is determined to be necessary for permit processing.
